

TIC provide inspirational design that will change how you think about your workplace.

People

We treat our own delivery teams and our sub-contractor database with respect and in turn they work with us, in a friendly and approachable manner which comes across in the day to day running and delivery of each project. We do operate a 'Right first time, every time' Policy.

“We have worked with Total Interior Contracts for over 3 years now, they always achieve a great project every time to a very high standard of finish, they are also real team players who always go the extra mile.”

Mark Davison GBK Property Director

total interior contracts

Saving our clients, on average, 20% more than other contractors.

Value engineering

We can save you money. We take a holistic approach and provide advice on the most cost effective ways to deliver your project. Whether it be on heating and cooling systems or sound rating to partition walls, we have the experience to help value engineer projects to suit all budgets.

TIC are a highly experienced team who provide a full turnkey solution for Office and Retail Refurbishments.

TIC deliver refurbishments of commercial and retail properties throughout the UK. We provide our services to occupiers, landlords and building managers who may be relocating, refurbishing or organising an existing space. We provide a full turnkey solution including partitions, ceilings, flooring, furniture, Mechanical and Electrical and Joinery

Office Design

Using the latest software we provide a fully visualised design concept along with setting out drawings, space planning and brand application.

Pre-Contract/Fit-Out

We have a proven track record of delivering high quality fit-outs throughout the UK. Our detailed quotation is based upon the initial information taken by the workplace analysis in consultation with you. The fit-out design and implementation is very much a team approach and we listen to your aspirations and resolve design/cost issues way before the project reaches the delivery stage.

The delivery team takes on the project on receipt of the order and will keep you fully up to speed with progress against pre-agreed programmes. Regular meetings on site are critical and we pride ourselves on having great communication during the fit-out stage.

Workplace Consultancy

We need to understand the businesses we work for and from initial introductions, our consultancy team will work with you to understand its business needs and aspirations. A detailed workplace analysis not only defines your office fit-out brief, it can also help to increase staff retention and morale.

Furniture & Joinery

We have many connections with world leading furniture manufacturers. This means that we are not tied down to any specific range, allowing us to source the highest quality furniture to suit the needs of your business and your employees. We work closely with you so that we can source the correct solution.

We can also provide bespoke joinery solutions, whether it be reception desks or bars for restaurants, all designed to suit your budget and specific requirements.
